Bob

The repairs that have been completed to date in the parking garage have totaled 57.754 cubic feet x \$350.00 = \$20,214.00.
The estimated volume of repairs remaining in the garage per our discussion is 30 cubic feet x 350.00 = \$10,500.00. Please let me know if you would like us to proceed. Not all of the numbers are in but it does look like the plaza deck contract will come in about Approximately \$30,000.00 under budget. I hope this helps.

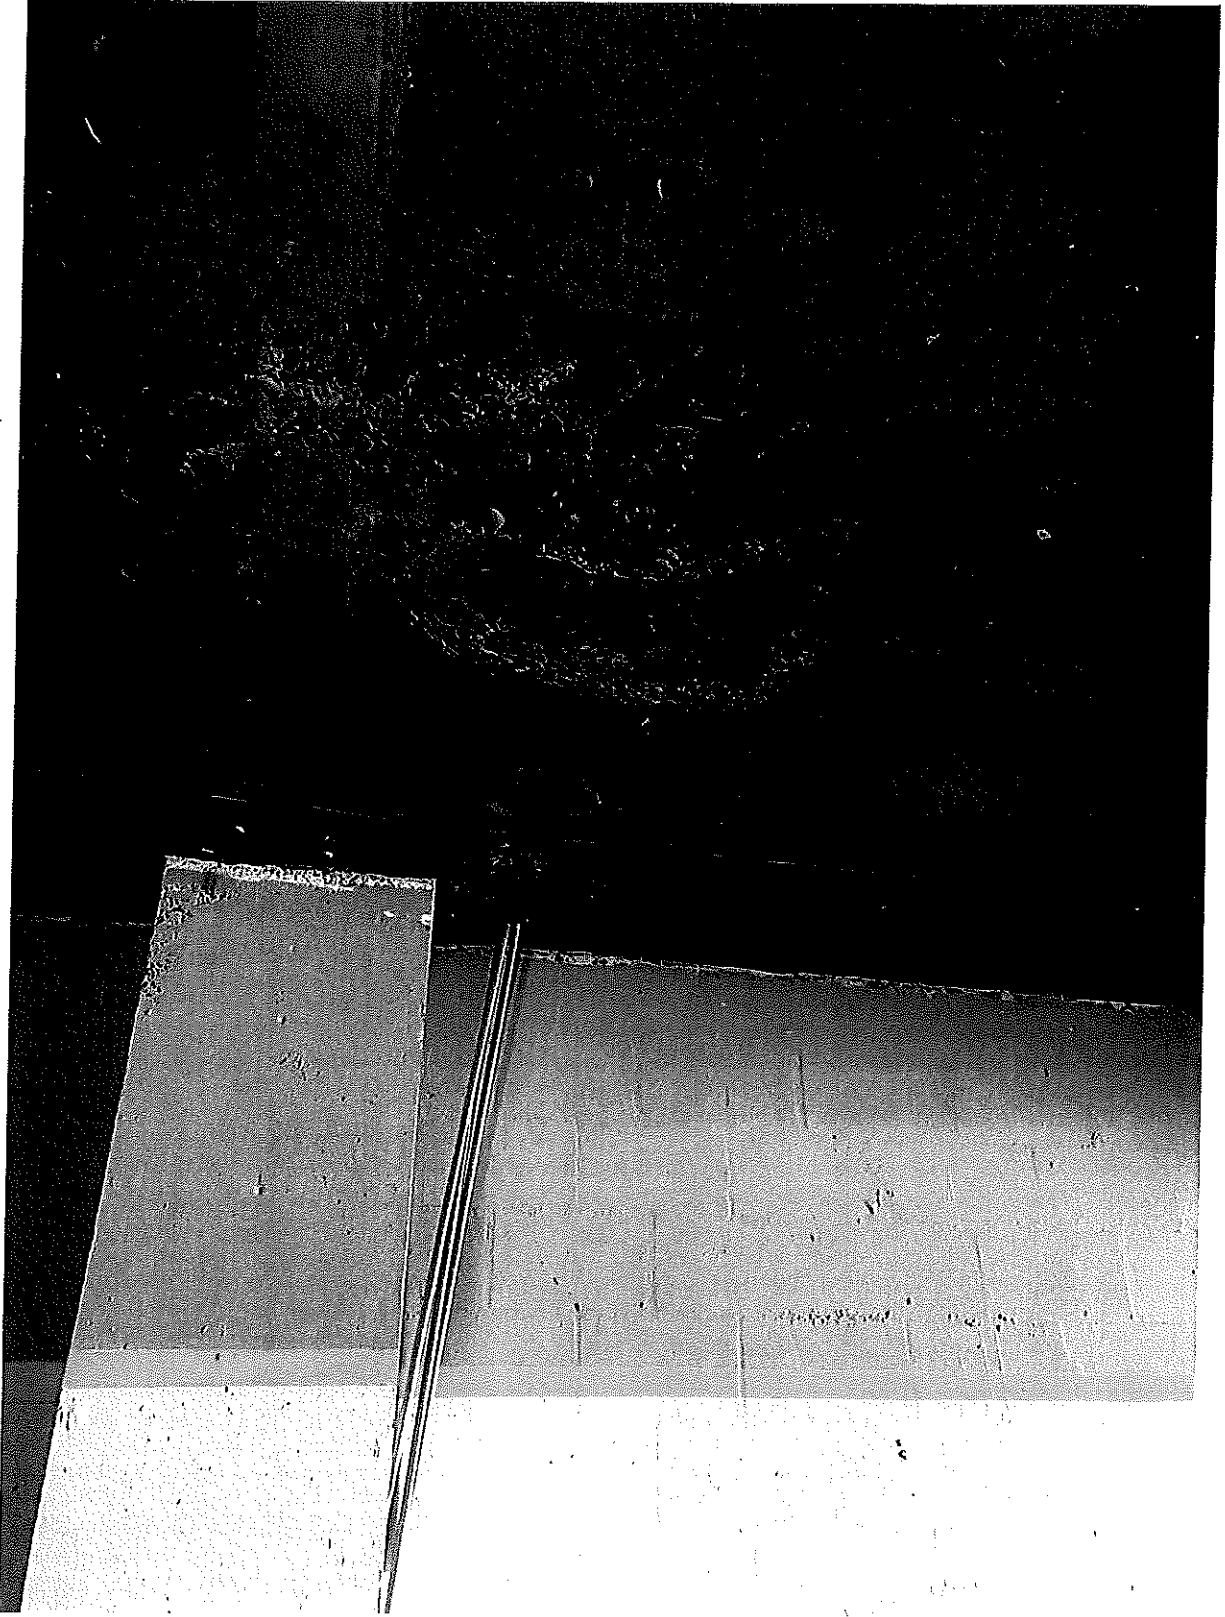

Bob
