Reserve Study Re-Inspection Report Proposal

DATE: July 9, 2020 (To be done in 2020)

PROPERTY: Bayshore Club Management Association, Inc.
925 North Halifax Avenue, Daytona Beach, FL 32118

INTRODUCTION: In **October of 2016**, Dreux Isaac & Associates, Inc. prepared a Reserve Study Report, *with a site inspection*, of the Bayshore Club Management Association, Inc. property. Since the time your last reserve study was prepared, replacement costs, reserve account balances and asset life(s) have changed.

To accurately plan and fund for future capital repair and replacement needs, an updated reserve study report with re-inspection can be prepared. The updated report will include the latest cost, life expectancy and account balance information. It will also reflect any related changes made to the property since the last report was prepared. The report will also comply with the latest provisions of the Florida Statutes, Florida Administrative Codes as well as auditing guidelines from the American Institute of Certified Public Accountants, which require full disclosure on the adequacy of reserves.

SCOPE OF WORK: Upon acceptance of this proposal, we will contact you to set-up an inspection date and at that time we will review any related changes made to the property since the last reserve study report was prepared.

All costs and life expectancy data will be updated accordingly. Current reserve financial data including expenditures, budget contributions and fiscal year end balances will be inputted. All new data will then be computed and analyzed. After a final review is completed, a pdf copy of the report will be prepared and sent to you. One hard copy is by request only see box below.

FEE: The total fee for this Reserve Study Update, with site inspection, is **\$3,200.00** and would be performed in **November, October of 2020**. At that time, 50% is due upon completion of the on-site visual observation inspection portion of the work. The remaining 50% balance is due upon the client's receipt of the pdf. You have 30 days to make any corrections or revisions. We do two sets of changes to account for errors/omissions and then charge thereafter for any additional changes. After 30 days, payment will be considered "past due".

No reports will be printed (only a pdf copy will be sent) unless indicated below.

PLEASE CHECK IF YOU WOULD LIKE 1 COPY SENT.

Subject: Re: Quote from WebWatchdogs - Bayshore Bath & Tennis Club
To: Marciea G <pcmaoffice@gmail.com>

Robert

As a follow-up to our conversation. The three 16 channel DVR/NVRs we are recommending are hybrid machines. This mean they are compatible with your existing cameras and also newer model 4K cameras. The 64 channel NVR from Optiview is only compatible with newer HD/4K cameras and is NOT compatible with any of your current existing cameras. I confirmed this with the manufacturer, Optiview.

So if we quoted you a 64 channel DVR/NVR we would also have to quote all new cameras because the 64 machine will not work with what is in place currently. The goal is to use your existing cameras with the three quoted new DVR/NVRs, that are more advanced and much more user friendly, and over time upgrade the cameras to newer 4K models as needed In addition to adding any new camera locations.

Hope this helps. Feel free to contact me with any questions.

Thanks

Matt Hathaway

Robert,

Per your request is the HD DVR upgrade quote to replace your 3 DVRS with our updated DVR model to control all your cameras. Included in the install will be installation of the software to view live and recorded video from the office and your smartphone remotely.

Please review along with our list of references and feel free to contact me with any questions.

Installation of the system would take approximately 2 days to do all the setup, configuration, and training. We are currently scheduling installs for April.

We look forward to the opportunity of providing the community with a system and support you will be extremely pleased with.

Thanks
