

Garbage FAQ

Q. How do I get rid of large appliances or furniture?

A. Place them next to the dumpsters after they have been brought outside on normal collection days. Our regular route driver will notify their dispatch and a flatbed truck will collect them later in the day. Do not place these items in the dumpsters.

Q. What if I have construction and demolition debris and materials?

A. The county's garbage company is not responsible for removal of these items including tile, wood flooring, concrete, drywall, baseboards, insulation, lumber of any kind, sliding glass doors, shower doors, shower surrounds, large pieces of glass or mirror, cabinets, vanities and counter tops. You may contact the garbage hauler or another authorized solid waste hauler to provide special collection and disposal.

Q. What about fluorescent light tubes or lamps?

A. Residents can bring these to either of the Volusia County Household Hazardous Waste Centers as they contain mercury.

Q. Where can I dispose of used electronics such as TVs and Computers?

Private residents can bring their e-waste to a Volusia County Household Hazardous Waste Center where they will be recycled.
